

California OES Weather Threat Briefing

Sunday, January 23, 2022
9:00 AM PST

Day 1 (Sunday): Locally gusty east to northeast winds will continue across the southern California mountains and foothills through the afternoon, subsiding through the evening. Gusts of 35 to locally 50 mph are expected, highest through early afternoon. Patchy dense fog is also expected over parts of the Central Valley through late morning.

WEATHER KEY POINTS

01/23/22 - 01/29/22

Sunday - Saturday

- Gusty east to northeast winds of 35 to locally 50 mph will continue across the southern California mountains and foothills through early Sunday afternoon, subsiding quickly through the late afternoon and evening hours. The strongest winds will be seen over Los Angeles, Ventura, and southwest San Bernardino Counties as well as the Santa Ana Mountains in Orange County and western Riverside County.
- Areas of overnight and morning dense fog will also be noted across portions of the Central Valley through midweek, significantly reducing visibility in localized areas
- Dry weather will persist statewide through at least late week, and likely into next weekend as well
- Another period of gusty offshore winds is expected late Tuesday and Wednesday across the southern California mountains and foothills, though gusts are not expected to be nearly as strong as those seen Friday night and Saturday morning

CALIFORNIA WEATHER IMPACTS
